What is SAT exam syllabus? The SAT exam syllabus has a total of 3 sections. The three sections of the SAT syllabus are Reading, Writing, and Mathematics. Earlier, there was an optional essay writing section which was recently discontinued by the SAT College Board. Thus, the subjects in SAT are reading comprehension, writing, and maths. Read this blog to know more about the SAT syllabus for each of these sections, types of questions in SAT, sample papers and more! SAT Exam Syllabus PDFDownload SAT Exam 2022 The SAT exam is a standardized test that helps universities examine where a candidate stands in a more objective manner. The test is a good criterion for universities and examiners to figure out how well prepared you are for college as well as get a better idea about the skills you've developed in school. This exam was earlier classified into two types, i.e. SAT Subject Test and SAT General Test. But recently, the SAT Subject Test has been scrapped by the SAT College Board. Below, we have discussed the aims of the SAT Exams: SAT General Test Mainly taken by students wanting to get admission into undergraduate programmes, SAT General Test aims to evaluate candidates on their written, verbal and mathematical skills. As the name suggests, the SAT syllabus for the General Test assesses general knowledge as well as critical reasoning. Focusing on particular disciplines or subject areas, there is a total of 20 subject tests which are bifurcated into 5 subject areas, namely, Languages, History, English, Mathematics and Science. These subject areas are divided into specific topics that are evaluated through a subject test. SAT Syllabus 2022 Credit: College Board Now that you are familiarized with the paper pattern of this exam, let's elaborate upon the Reading, Writing, Mathematics and Essay (discontinued) section of the SAT exam syllabus and what they aim to assess: SAT ReadingComprising of reading comprehension, every passage under this section has 10-11 questions. Having a total of 5 passages of varying lengths, this section aims to evaluate your ability to comprehend written text, understand the meaning of words in different contexts as well as their associated terms with implied meanings. SAT WritingHaving 4 passages with 10-11 questions each, you are expected to find errors, rephrase, and rewrite highlighted sentences with alternative text, amongst others. It focuses on assessing the candidate's understanding of vocabulary as well as grammar. SAT MathematicsConstituted of two sub-sections divided into the 25-minute section provided with no calculator and a 55-minute section with a calculator allowed. It has 58 questions spread across varied basics of mathematics such as algebra, statistics, geometry, arithmetic, probability, data interpretation, and problem-solving questions. SAT Essay (Discontinued)Aiming to analyse one's quality of writing as well as English comprehension, this section has an essay question (650-700 words) focusing on an issue and asking the candidate to take a stance on one side of the topic. Make sure you keep your analysis limited to the given data with precise explanation and don't elaborate upon personal opinions. SAT Exam Pattern 2022 The total duration of the examination is 3 hours. The test scores range between 400 and 1600 points. The exam syllabus is bifurcated into 3 sections, these include Reading, Writing and Language, and Mathematics. Take a look at the following table which elucidates the SAT exam pattern in detail. SAT Writing Syllabus The questions in this section of the SAT syllabus will test your evidence-based reading and writing skills. In this section, your writing and reading abilities are tested. The topics for the articles or write-ups are mainly centred on generic topics that do not necessitate your prior knowledge of the subject. In fact, certain passages have supplementary graphs and charts to assess your imperative skills. SAT Writing Exam Pattern You have to attend 44 multiple choice questions in 4 passages in 35 minutes You need to edit passages One of the following modes of writing will be present in the exam out of the narrative, argumentative and informative/explanatory The passages revolve around topics like, Humanities Science Careers History & Arts Social Sciences Type of Questions in SAT Writing You will be expected to answer certain questions pertaining to the passages, some examples of the questions asked in the writing section of the SAT exam syllabus are: Sentence structure, verb tense, punctuation, parallel construction, grammar usage, subject-verb agreement, etc. Strengthen/weaken the argument Word choice for style, text or tone Structural changes to improve readability SAT Reading Section Syllabus This section of the SAT exam syllabus focuses on evidence-based reading and writing. This test will especially focus on your reading abilities. SAT Reading Exam Pattern The exam pattern will have 52 multiple choices in 5 passages to finish in 65 minutes. Two passages will be from science fields One literary passage will be from Classics or contemporary texts of the US or world literature Texts from the U.S. founding documents or Great Global Conversation on topics like dignity, human rights, freedom, etc Extracts from Economics, Sociology, Psychology, amongst others. You must answer questions by telling a story, giving an argument or explaining an experiment or study Type of Questions in SAT Reading The function a phrase serves in the passage The tone, style, perspective, and attitude of the author Analyzing data on the basis of diagrams, charts, and graphs The central theme or main idea of the passage Inference of a phrase in a paragraph Arguments or evidence that supports the author's stance Useful Tips: The format of the examination does not expect prior knowledge of the passage topics from you but with constant practice, you can develop a familiarity that will help you in answering the reading and writing sections of the SAT exam syllabus more effectively. SAT Maths Syllabus Most students fear the mathematics section of competitive exams, but if you have a fair idea of what this part of the SAT exam syllabus comprises, then you will be able to prepare for it in an effective manner. The mathematics section is divided into two parts – one with a calculator and another section that students need to solve without using a calculator. SAT Mathematics Pattern The mathematics section comprises of two sections: One with a calculator. Second without Calculator You need to attempt a total of 58 questions in 80 minutes 80% of questions are multiple-choice while 20% of them are grid ins For Maths with a calculator: You have 30 MCQs and 8 grid-in questions You need to enter your derived answers in the bubble sheet you are provided Maths without calculator has 15 multiple choice questions and 5 grid-in questions You will be given a set of formulas and references at the beginning of the test If you are applying for courses in science, engineering or maths, pay special attention to the 'Maths without Calculator' section Type of Questions in SAT Maths Algebra Graphical representation of the linear function Linear equations with rational coefficients Linear inequalities in two variables and their systems System of linear equations (with no solution, infinite or finite solutions) Data Analysis & Problem Solving Percentages Ratio and Proportion Unit conversion Equation of line or curve using a scatterplot Two-way tables to calculate conditional frequencies and conditional probabilities Association of variables or independence of events Estimation of a population parameter Calculation of mean, median, mode, range and standard deviation in statistics Evaluation of reports to check the appropriateness of data collection methods Advanced Math Quadratic equations with rational coefficients Determining the form of an expression Polynomial equations (subtraction, multiplication, addition and division) Zeros and factors of polynomials Non-linear relationship between two variables Function notation Isolation of a variable by rearrangement of formula or equation. Useful Tips: The only way to ace the math section is through consistent practice of the various topics of the syllabus. Since math is based heavily on practical knowledge it is important that your basics of the concepts are absolutely clear. SAT Math 2 Syllabus Here is the syllabus for SAT Math 2 Subject Test (discontinued): Number and Operations Operations Ratio and Proportion Complex Numbers Counting Elementary Number Theory Matrices Sequences Series Vectors Algebra and Functions Expressions Equations Inequalities Representation and modeling Properties of functions (linear, polynomial, rational, exponential, logarithmic, trigonometric, inverse trigonometric, periodic, piecewise, recursive, parametric) Geometry and Measurement Coordinate Lines Parabolas Circles Ellipses Hyperbolas Symmetry Transformations Polar coordinates Three-dimensional Solids Surface area and volume (cylinders, cones, pyramids, spheres, prisms), coordinates in three dimensions Trigonometry Right triangles Identities Radian measure Law of cosines Law of sines Equations Double angle formulas Difference between SAT Mathematics Level 1 and Level 2 The major difference between SAT Mathematics Level 1 and Level 2 exams is that Level 1 contains topics like algebraic expressions, coordinate geometry, data analysis, and number sequences. However, Level 2 Maths includes all these topics along with logarithmic functions and the law of cosines and sines. Both exams have 50 questions that need to be finished in 60 minutes. SAT Essay 2022 Note: The College Board has announced the discontinuation of the SAT Subjects and the SAT optional Essay. The below information is only for your reference. While the essay component in the examination is optional, many universities expect you to score well in this section as well. Many universities also have it listed as a required or recommended section. The essay section of the SAT syllabus helps the university determine your reading, writing, and analytical skills simultaneously. This section is panned out in a manner where you will be expected to read a 650-700 words long passage, after reading the passage you will have to analyze how the author builds the argument and write it in a coherent manner in a 50-minute duration. SAT Exam Syllabus for Medical The SAT Exam Syllabus for Medical is the same as the syllabus for other courses which has been explained above. How to Prepare for SAT Essays Note: The College Board has announced the discontinuation of the SAT Subjects and the SAT optional Essay. The below information is only for your reference. While preparing for this section, it is important that you understand how to develop an analytical approach to reading the paragraph so that you can write an analysis that is not tainted by your personal opinion or bias. This can only be mastered through continuous practice. Also, by engaging with articles of different authors helps you get a better idea about how different authors build their arguments. SAT Exam Preparatory Essentials Once you have a fair idea of the SAT syllabus, you will need certain resources that will help you prepare better for the examination. Here is a list of major books for SAT preparation that you must have: SAT Sample Papers Here are some official SAT sample papers you can practice to master the SAT syllabus: SAT Sample Paper 1 by College Board- Official Practice PaperDownload SAT Sample Paper 2 by College Board- Official Practice PaperDownload SAT Sample Paper 3 by College Board- Official Practice PaperDownload SAT Sample Paper 4 by College Board- Official Practice PaperDownload SAT Sample Paper 5 by College Board- Official Practice PaperDownload How to prepare for SAT? Mentioned below are some of the best ways and methods to prepare for the SAT. You can have a look here: Get Familiar With The Pattern Of SAT Learn Mental Maths Read Nonfiction Attempt Mixed Practice Tests Revise Quickly During Your Breaks Work On Your Weak Points Don Not Mug! Revise Your Grammar Set A Score Goal Courtesy: Q School or Death FAQs What is SAT exam syllabus? SAT Exam comprises of Reading, Writing, Mathematics and an optional essay section. Candidates need to cover each section thoroughly in order to cover up the entire syllabus for the exam. Is SAT very difficult? SAT is not a very difficult exam but one it is not very easy either. As it is considered as one of the most reliable examinations for UG admissions abroad, one needs to take it seriously and prepare well for the same. What is the eligibility for SAT exam?
